INDEX TO AUTHORS.

ABRAHAM, E. P., the effect of proactinomycin on *Staphylococcus aureus* in heart broth, 349

ALBERT, A., RUBBO, S. D., GOLDACRE, R. J., DAVEY, M. E., and STONE, J. D., the influence of chemical constitution on antibacterial activity. II. A general survey of the acridine series, 160

ANDERSON, C. G., BROWN, A. M., and MACSWEEN, J. C., the production, purification and titration of the neurotoxin of *Shigella dysenteriae*, 197

ANDREWES, C. H., and GLOVER, R. E., grey lung virus: an agent pathogenic for mice and other rodents, 379

ATKINS, P., and WARD, J. L., the antibacterial effects of analogues of vitamin K, 120

BAWDEN, F. C., and PIRIE, N. W., further studies on the purification and properties of a virus causing tobacco necrosis, 277

——— ——— the separation and properties of tobacco mosaic virus in different states of aggregation, 294

BIELSCHOWSKY, F., experimental nodular goitre, 270

BROWN, A. M., see *Anderson, C. G.*

BRÜCKMANN, G., and WERTHEIMER, E., lysis of red blood cells by tissue slices, 217

BUÜ-HOI, see *Lacassagne, A.*

CHALMERS, M. I., see *Munro, H. N.*

COOK, A. H., and LACEY, M. S., production of antibiotics by fungi, 404

COOMBS, R. R. A., MOURANT, A. E., and RACE, R. R., a new test for the detection of weak and "incomplete" Rh agglutinins, 255

CUNLIFFE, A. C., see *Schwabacher, H.*

DANIELLI, J. F., FELL, H. B., and KODICEK, E., the enzymes of healing wounds. II. The effect of different degrees of vitamin C-deficiency on the phosphatase activity in experimental wounds in the guinea-pig, 367

DAVEY, M. E., see *Albert A.*

DMOCHOWSKI, L., age and dosage in the induction of breast cancer in mice by the mouse mammary tumour agent, 192

——— comparative potency of the mammary tumour agent of mice of different genetic constitution, 267

DUTHIE, E. S., and WYLIE, J. A. H., the influence of shaking on the *in vitro* production of soluble bacterial toxins, 130

EVANS, D. G., the treatment with antitoxin of experimental gas gangrene produced in guinea-pigs by (a) *Cl. welchii*, (b) *Cl. oedematiens*, and (c) *Cl. septicum*, 104

FELL, H. B., see *Danielli, J. F.*

FILDES, P., the biosynthesis of tryptophan by *Bact. typhosum*, 416

FLOREY, H. W., JENNINGS, M. A., and SANDERS, A. G., biological investigations on proactinomycin, 337

GALE, E. F., the arginine, ornithine and carbon dioxide requirements of streptococci (Lancefield group D) and their relation to arginine dihydrolase activity, 225

——— the effect of sulphanilamide on the arginine and carbon dioxide requirements of streptococci (Lancefield group D), 234

GILBERT, C., see *Gillmann, J.*

GILLMANN, J., GILLMANN, T., MANDELSTAM, J., and GILBERT, C., the production of severe hepatic injury in rats by the prolonged feeding of maize-meal porridge (mealie pap) and sour milk, 67

GILLMANN, T., see *Gillmann, J.*

GLOVER, R. E., see *Andrewes, C. H.*

GLYNN, L. E., HIMSWORTH, H. P., and NEUBERGER, A., pathological states due to deficiency of the sulphur-containing amino-acids, 326

GOLDACRE, R. J., see *Albert, A.*

GRAY, C. H., laevulose tolerance in acute hepatitis, 49

GREENWOOD, A. W., and PEACOCK, P. R., the influence of genetic factors on the transmissibility of fowl sarcomas, 357

GRIESBACH, W. E., and PURVES, H. D., the significance of the basophil changes in the pituitary accompanying various forms of thyroxine deficiency, 13

——— KENNEDY, T. H., and PURVES, H. D., studies on experimental goitre. VI. Thyroid adenomata in rats on brassica seed diet, 18

HALE, J. H., and SMITH, WILSON, the influence of coagulase on the phagocytosis of staphylococci, 209

HARPER, G. J., see *Schwabacher, H.*

HIMSWORTH, H. P., see *Glynn, L. E.*

JACOBY, F., the toxicity of sulphadiazine and sulphaguanidine to macrophages *in vitro*, 137

JAPA, J., a study of haemopoiesis in pernicious anaemia bone marrow, 111
JENNINGS, M. A., see *Florey, H. W.*
JOHNSTON, J. P., and OGSTON, A. G., the ultracentrifugal examination of fractions of tobacco mosaic virus, 313

KEELE, C. A., and SLOME, D., renal blood flow in experimental "crush syndrome," 151
KENNEDY, T. H., see *Griesbach, W. E.*
KLECZKOWSKI, A., the reaction of products of initial stages of peptic proteolysis of human and horse serum albumin with antisera to the original albumins, 24
——— conversion of non-precipitating and inhibiting protein complexes into forms again precipitable by the antisera to the original proteins, 33
——— specific precipitation of one protein by antiserum to another, 41
KNOX, R., the effect of tetrathionate on bacterial growth, 146
KODICEK, E., see *Danielli, J. F.*

LACEY, M. S., see *Cook, A. H.*
LACASSAGNE, A., BUÜ-HOI, and RUDALI, G., inhibition of the carcinogenic action produced by a weakly carcinogenic hydrocarbon on a highly active carcinogenic hydrocarbon, 5

MACSWEEN, J. C., see *Anderson, C. G.*
MANDELSTAM, J., see *Gillmann, J.*
MAYER-GROSS, W., and WALKER, J. W., the glucose content of tissue fluid in hypoglycaemic coma, 81
MORGAN, W. T. J., and WATKINS, W. M., the examination of rabbit anti-A immune sera produced by means of an artificial A-antigen, 247
——— and SYNGE, R. L. M., an anti-gramicidin immune rabbit serum, 287
——— and WADDELL, M. B. R., a specific blood group O substance, 387
MOTTRAM, J. C., the change from benign to malignant in chemically induced warts in mice, 1
——— and SELBIE, F. R., differential centrifugalization of intranuclear particles in the bean root and in animal tissues, 377
MOURANT, A. E., see *Coombs, R. R. A.*
MUNRO, H. N., and CHALMERS, M. I., fracture metabolism at different levels of protein intake, 396

NAGLER, F. P. O., treatment of experimental gas gangrene due to *Clostridium welchii* with penicillin and antitoxin, 57
NEUBERGER, A., see *Glynn, L. E.*

OGSTON, A. G., ultracentrifugal examination of a virus causing tobacco necrosis, 286
——— see *Johnston, J. P.*

PEACOCK, P. R., see *Greenwood, A. W.*
PETTIGREW, F. W., see *Riley, J. F.*
PIRIE, N. W., see *Bawden, F. C.*
POLLOCK, M. R., the influence of temperature on the adaptation of "tetrathionase" in washed suspensions of *Bact. paratyphosum B*, 410
PROOM, H., some observations on penicillinase, 98
PURVES, H. D., see *Griesbach, W. E.*

RACE, R. R., see *Coombs, R. R. A.*
RILEY, J. F., and PETTIGREW, F. W., acceleration by means of prolonged mechanical irritation of carcinogenesis in the skin of mice painted with 1 : 2 : 5 : 6-dibenzanthracene, 63
RUBBO, S. D., see *Albert, A.*
RUDALI, G., see *Lacassagne, A.*

SANDERS, A. G., see *Florey, H. W.*
SCHWABACHER, H., CUNLIFFE, A. C., WILLIAMS, R. E. O., and HARPER, G. J., hyaluronidase production by staphylococci, 124
SELBIE, F. R., properties and pathogenicity of a virus derived from sheep dermatitis, 89
——— see *Mottram, J. C.*
SINGH, B. N., the selection of bacterial food by soil amoebae, and the toxic effects of bacterial pigments and other products on soil protozoa, 316
SLOME, D., see *Keele, C. A.*
SMITH, WILSON, see *Hale, J. H.*
STONE, J. D., see *Albert, A.*
SYNGE, R. L. M., see *Morgan, W. T. J.*

UNGAR, H., experimental production of urate calculi in the urinary tract of white rats, 363

WADDELL, M. B. R., see *Morgan, W. T. J.*
WALKER, J. W., see *Mayer-Gross, W.*
WARD, J. L., see *Atkins, P.*
WATKINS, W. M., see *Morgan, W. T. J.*
WERTHEIMER, E., see *Brückmann, G.*
WILLIAMS, R. E. O., see *Schwabacher, H.*
WYLIE, J. A. H., see *Duthie, E. S.*
